Summary

Frontend Developer with 5 months of experience, specializing in React, Next.js, and Redux. Skilled in building responsive web applications using modern technologies like TailwindCSS and Ant Design. Capable of developing E-Learning platforms, with a strong understanding of SEO best practices and performance optimization.

Skills

Web Technologies HTML, CSS, JavaScript ReactJS, NextJS, Redux, Tailwind CSS, Bootstrap, GitHub, TypeScript, Material UI, SASS, Firebase, Clerk, NodeJS, ExpressJS, jQuery, Jest, React Testing Library
Concepts Problem Solving, OOP, Database, Clean Code, Data Structure, Algorithm
Soft Skills Collaboration, Commitment, Adaptability, Flexibility, Detail-Oriented , Patience , Teamwork

Experience

Natlix Oct 2024 – Present

Junior Front-End Developer

- Collaborated with the backend team to integrate APIs, improving the website's functionality and handling data efficiently for a large user base.
- Refactored the codebase for performance, scalability, and maintainability, ensuring the site can support a growing number of students.
- Enhanced the user experience (UX) by designing intuitive, responsive interfaces that work seamlessly across all devices.
- Implemented SEO strategies, improving the website's visibility and performance on search engines.

Web Masters Jul 2024 – Aug 2024

Front-End Developer Internship

- Developed and optimized an eCommerce website, ensuring smooth functionality and user experience across multiple devices.
- Enhanced the site's responsiveness and usability on different devices, ensuring a seamless experience for all users.

Education

Digital Egypt Pioneers Initiative - DEPI Oct 2024 – Present

React Front-End Developer Course

Helwan University Sep 2019 – Jul 2023

Bachelor of Commerce English Section

Major: Management Information System

Achievements

E-learning App (Natlix)

- Refactored the project by migrating from React JS to Next JS to enable server-side rendering (SSR) for better SEO performance.
- Utilized TypeScript for improved code quality and maintainability.
- Integrated React Query to manage and optimize API data fetching and state management.
- Technologies: HTML, CSS, JavaScript, React JS, Next JS, React Router, React Query, TailwindCSS, TypeScript, Antd

E-commerce App (Web Masters)

- Implements Redux to manage the state of the cart and user authentication through Firebase.
- Uses React Query for efficient API handling and MockApi for testing
- Features search bar, category browsing, side filters, and sorting options for an enhanced shopping experience.
- Technologies: HTML, CSS, JavaScript, React JS, Redux, React Router, React Query, Firebase, TailwindCSS
